

If you have an idea of something different in mind I am always open for suggestions. For example here is a terrarium with needle felted succulent plants inside.

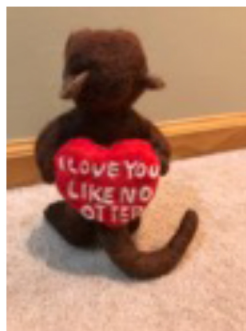

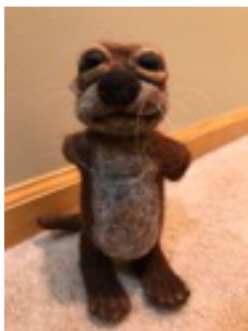

A baby robin in a nest

A pet goat

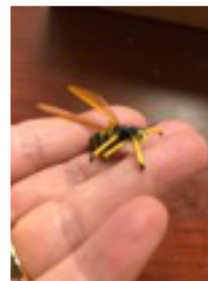

something for your sweetheart

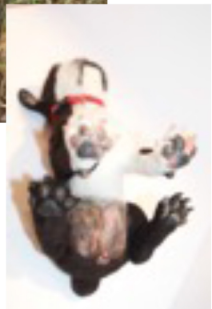

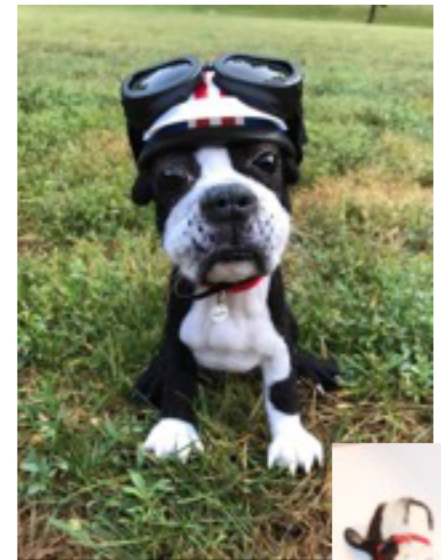

www.thefeltedwooly.com

I also make fly fishing lures, to fish with, or to have incorporated in with a sculpture or ornament.

All I need are pictures of your pet to go from. My work is mostly custom, so pricing may be different from piece to piece. Contact me for a quote.

ETSY TheFeltedWooly

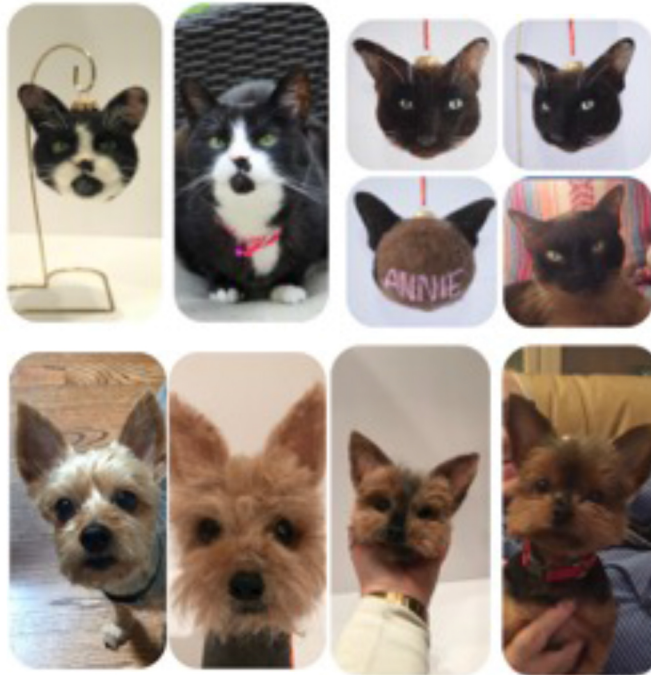

Specializing in anything made with wool, angora, alpaca, and llama. I make handmade sculptures, ornaments, and pictures that look just like your pet. They make great memorial gifts. Custom orders welcome.

The sculptures I make have a wire armature inside so they are lightly posable so the head and legs can move. The nose and pads on the bottom of feet have a wax mixture that add a more lifelike feature. I can also add ashes, and blend real fur upon request.

The ornaments that I make are made from solid wool. I start with white core wool and then sculpt it into the face of your pet. I add hand painted glass eyes. Then the top coat of fur is worked on top of the core. Next comes the whiskers. I can place a name on the back if you desire one. Then the hanger is placed on top.

My wall hangings are pictures painted with small wisps of wool, angora, alpaca, and llama. A picture can be done on a piece of felt, or linen. I can place felt or linen on the back, or it can be stretched over a canvas, or simply placed in a frame.
